Read the text and answer the questions.

Hello. My name's Bott, Robert Bott. Some people call me Rob Bott, but my friends call me Robbie. I'll tell you some things about me...

I was born (er... built) in Newtown in 2060, it is now 2153, so I am 93 years old. I live in a flat in a floating building, not far away from my office. I work as a counsellor at a marriage bureau. I like my job a lot, making matches and combinations is fun for a robot (er... a humanoid).
This is a normal day in my life...

I usually get up at half past six. Then I have an oil shower and polish my metal body. This takes me almost an hour.
After that I go to work by taxi. I work from nine in the morning until five in the afternoon, but I have an hour's break for lunch (er... to reload my solar batteries).

I have a very interesting hobby, I collect old clock's and watches, so after work I go for a walk and sometimes visit antique shops. I usually get home by quarter to seven. I spend around two hours every day repairing and cleaning my clocks and watches.

Then I have shake made of lubricants for dinner. Finally I go to bed (well... I switch myself to prevent a short-circuit).

Answer the following questions.

1. How old is Rob?
2. Where does he live?
3. Does he like his job?
4. What is his hobby?
5. What time does he get home?
6. What does he have dinner?

Now write about your daily routine
